RESOLUTION # 2020-21

PURCHASE – Tablets

Whereas, technology has advanced the quality of information available to first responders, and private applications provide access to incident notifications, incident mapping with directions, hydrant and water source mapping, pre-plans for commercial response, and other data critical to incident command; and

Whereas, mobile and real-time access to this information has become an effective tool used by emergency responders and appreciably enhances their ability to accurately assess and direct operations at emergency scenes; and

Whereas, the computer tablets currently used by Pennington Fire Company personnel are outdated and of insufficient number to allow responding apparatus access to important incident information; and

Whereas, research into the cost of six (6) computer tablets and mounts indicates the cost should not exceed \$4,000 in total;

Whereas, the Chief Financial Officer has certified that there are sufficient funds available to pay up to \$4,000.00 for the tablets and mounts.

Now, therefore be it resolved by the Board of Fire Commissioners of Pennington Borough Fire District No. 1 that authorization is given for the purchase of up to six (6) computer tablets and mounts pursuant to lowest competitive quote to be obtained, or from a state approved purchasing cooperative, at a total cost not to exceed \$4,000.00, chargeable to Firefighter Equipment.
